

1 Resolution – Book packages in all studies

2

3 On SiS's websites, it is advertised "*One package - one price - At the start of the semester, we*
4 *collect your curriculum in one package, at one price. The book packages has a fiscount, so*
5 *this is both easier and cheaper than buying the books separately.*" This offer seems to be very
6 beneficial for students' finances, but to our notice, this offer is not for everyone. We have
7 received feedback from students who did not receive this offer, so we find it strange that this
8 is advertised.

9

10 LiberalModerat will therefore work to ensure that all students, in spite of their field of study,
11 are offered the opportunity to purchase the entire mandatory curriculum in one book package
12 at a reduced price. We also want to ensure that students can have different specializations
13 within the same study program, and therefore it should be made book packages thereafter. To
14 be able to make book package for students with different studies should not be a problem.

15

16 The fact that many students prefer to use e-books is also something we want to consider. We
17 want to give students the opportunity to purchase e-book book packages, even if students
18 wants the entire curriculum digital or just some books. We also want to argue that SiS bok
19 should focus on more sustainable solutions in the form of being able to offer a wide range of
20 e-books as paper books.

21

22 LiberalModerat are aware of that students can probably buy e-books elsewhere, and books in
23 general, but we want the students' first and best choice to be at SiS bok. The income at SiS
24 bok will benefit students later, versus buying books from other companies.

25

26 Every fifth book is free at SiS bok, but we believe and wish that through the purchase of a
27 book package the students could save more and it is also much more effective. We want
28 students to have the opportunity to go and acquire all semester books during the short time of
29 a 15-minute break.

30

31 LiberalModerat therefore want the Executive Committee, with the help from the University of
32 Stavanger and SiS, to work to ensure that all students, despite of their field of study, are given

33 the opportunity to buy book packages on SiS bok at a reduced price, and get the choice

34 whether to buy paper books or e-books.

35
